

Fund Objective

A medium risk fund aimed at providing some protection against sudden volatility, however, with a flavour of equity built in to provide upside potential. This should be considered a 3 – 5 year term portfolio.

Note that as this is a GLOBAL fund, we will, from time to time, hold SA assets if this is appropriate.

Commentary

The first quarter of 2020 saw the spread of COVID-19 globally, wreaking havoc in its path. No market was spared, however the bond holdings in the Merlot fund remained bouyed which protected the overall return somewhat. Developed and emerging market equities fell drastically, but emerging market bonds fell less so, also providing some protection. Global property was the worst performing, losing 24% for the quarter, however, the fund only holds 9% in this asset class.
