Fund Objective

A medium risk fund aimed at providing some protection against sudden volatility, however, with a flavour of equity built in to provide upside potential. This should be considered a 3 – 5 year term portfolio.

Note that as this is a GLOBAL fund, we will, from time to time, hold SA assets if this is appropriate.

Commentary

The fund lost -10,08% in Q2. Talk of recessions, high inflation globally, rising interest rates and the ongoing Russia/Ukraine war continued to scare investors and created a risk-off environment. Global emerging markets and developed equities continued to fall. Global property and global bonds also continued to decline. Cash was deployed at the end of quarter to take advantage of lower prices across all our holdings.
