

Fund Objective

A medium risk fund aimed at providing some protection against sudden volatility, however, with a flavour of equity built in to provide upside potential. This should be considered a 3 – 5 year term portfolio.

Note that as this is a GLOBAL fund, we will, from time to time, hold SA assets if this is appropriate.

Commentary

The fund gained 4,06% in Q2. Global equity markets rallied mainly off the back of tech stocks. Emerging market equities and bonds, as well as global property, made a small come back. The fund invested another small portion into SA GOVI bonds to take further advantage of the higher yields and weak currency caused by the rate hiking cycle globally and locally.
