Fund Objective

A medium risk fund aimed at providing some protection against sudden volatility, however, with a flavour of equity built in to provide upside potential. This should be considered a 3 – 5 year term portfolio.

Note that as this is a GLOBAL fund, we will, from time to time, hold SA assets if this is appropriate.

Cumulative Returns

Commentary

The fund made 1,81% in Q4. Emerging market shares and bonds contributed towards the gain, along with developed market shares. There was some weakness in the active emerging market fund and global property holdings. The quarter showed some slow down after a bullish year.
